WHITE RABBIT SCREEN PRINTING PRICE SHEET

PRIMARY REQUIREMENTS

You **must provide your own artwork**, we don't do design work at this time, but we can refer you to someone if you like. Once you have your design you can either drop it off here at the shop or send it via email. The image must be converted to black and white (**NO GRAYSCALE**). Whatever is black is what will print on the shirt in whatever ink color you choose. When you send us your image please make sure that it is to size and in the format of a jpeg 300 dpi or larger.

Your design must be a 1 COLOR design (for example: white ink on a black shirt, red ink on white shirt) At this time we do not offer multi-color screen-printing but we will soon!

For the prices listed below, you must order 25 pieces (they can be different styles and colors as long as the ink color remains the same.)
